

## PHFA Multifamily Energy Conservation Loan

Pennsylvania Housing Finance Agency is conducting three, 1 day informational sessions concerning energy consumption and reduction in multifamily buildings.

**Tuesday September 16** – Four Points Sheraton Pittsburgh North, 910 Sheraton Drive, Mars PA (Sponsored by West Penn Power Sustainable Energy Fund)

**Wednesday September 17** - PHFA Board room 211 North Front St, Harrisburg PA

**Thursday September 18** - Fort Washington Holiday Inn 432 W. Pennsylvania Ave Fort Washington, PA 19034

(all sessions are 9:00 am – 5:00 pm, 1-1/2 hour lunch on your own)

Andy Padian of Steven Winter Associates will be speaking concerning multifamily buildings and their energy consumption. Topics include: Energy Usage Analysis, Whole Building Systems Approach, Lighting, Appliance & Electricity Usage, Water Usage, Heating, Ventilating, and Air Conditioning Systems (HVAC), Building Controls, Health and Safety.

PHFA will be providing information concerning the Multifamily Energy Conservation Loan, such as program specifics, PHFA Multifamily Audit Standards, program requirements and upcoming Building Performance Institute multifamily analyst training.

### **Those who should attend:**

- Energy professionals, energy engineers, building performance specialists and any others who would be interested in providing energy audits for multifamily buildings.
- Owners of multifamily buildings interested in learning more about energy reduction and the upcoming PHFA Multifamily Energy Conservation Loan Program.
- Fiscal and accounting staff that make decisions based solely on first-cost/least-cost
- Maintenance staff of buildings who want to learn the best industry practices

*Andy Padian of Steven Winter Associates has over 25 years of experience in the unique building science of multi-family buildings. He has performed detailed energy analysis on hundreds of multi-family buildings across the country providing recommendations for energy and water efficiency, comfort, durability, and health & safety for both new and existing buildings.*
